

Accessing workshop environments & logging-in for the first time

1. Ensure your device has internet connectivity. Open a new **InPrivate (or InCognito)** window in your browser and navigate to <https://app.fabric.microsoft.com/>
2. Enter your username in the Email field – **if you don't have one, please ask your instructor.**

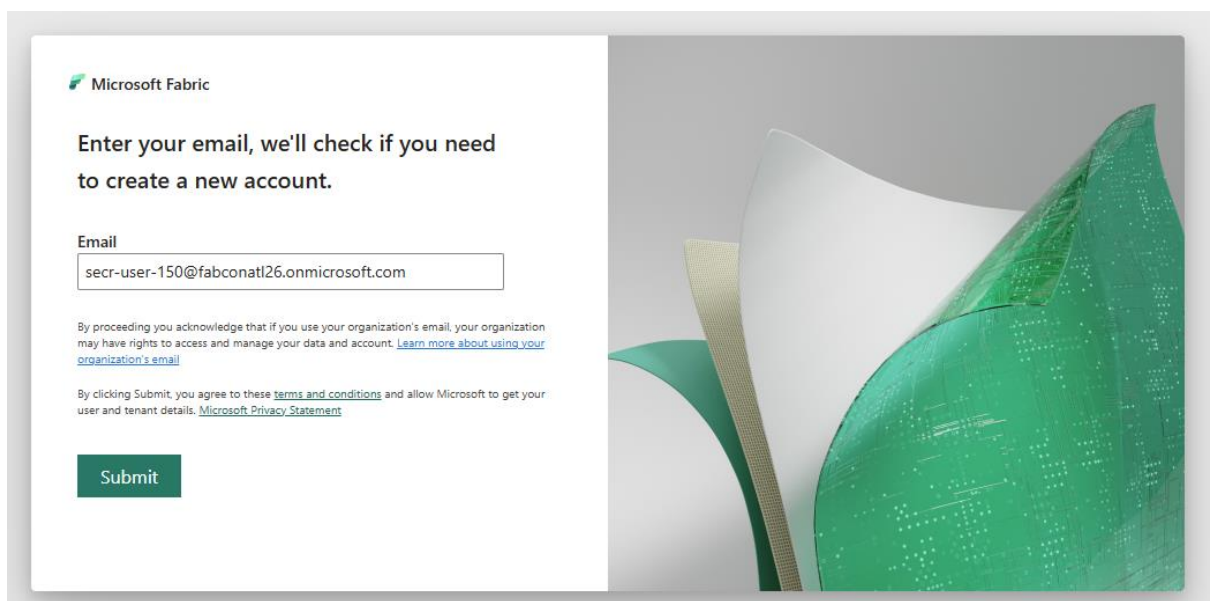

Your username will be in the format:

secr-user-xxx@fabcon26.onmicrosoft.com where **xxx** is your three-digit attendee number. Each attendee will have their own attendee number starting from 001 to 100 (there are 100 attendees max in this workshop).

Example: If your attendee number is 005, your username will be secr-user-005@fabconatl26.onmicrosoft.com

Note:

- To simplify this workshop, some pre-provisioned resources (workspaces, Azure subnets, ADLS containers) include your username. This will assist you identify your resources.
- All resources for this workshop are prefixed with **secr-**
- You will see that there are 150 users and corresponding resources pre-provisioned in the tenant, **but do not use the usernames and resources from 101 to 150. They are reserved.**

Microsoft Fabric

Enter your email, we'll check if you need to create a new account.

Email

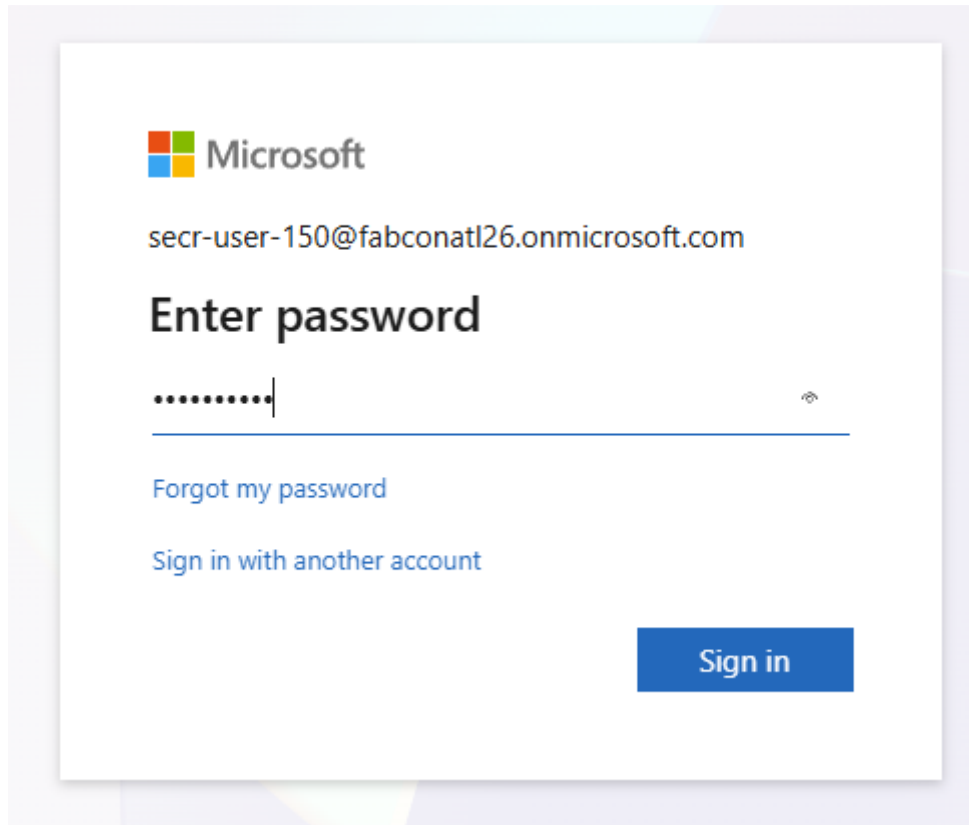

By proceeding you acknowledge that if you use your organization's email, your organization may have rights to access and manage your data and account. [Learn more about using your organization's email](#)

By clicking Submit, you agree to these [terms and conditions](#) and allow Microsoft to get your user and tenant details. [Microsoft Privacy Statement](#)

Submit

Click **Submit**.

3. Enter your **default password** (the default password for all users is **FabCon2026**) (upper-case F and upper-case C)

The image shows a Microsoft login interface. At the top left is the Microsoft logo. Below it, the email address 'secr-user-150@fabconatl26.onmicrosoft.com' is displayed. The main heading is 'Enter password'. Below this is a password input field with a masked password '.....' and a toggle icon for visibility. Under the input field are two links: 'Forgot my password' and 'Sign in with another account'. A blue 'Sign in' button is located at the bottom right of the form.

Sign in

4. You will be prompted to update your password. **Please take a note of your new password** as you'll be using to access other resources during this workshop.

A screenshot of a Microsoft password update form. At the top left is the Microsoft logo. The title 'Update your password' is centered. Below it, a message states: 'You need to update your password because this is the first time you are signing in, or because your password has expired.' There are three password input fields, each with a label of eight dots. The third field has an eye icon to its right. A blue 'Sign in' button is located at the bottom right of the form.

Microsoft

Update your password

You need to update your password because this is the first time you are signing in, or because your password has expired.

Sign in

5. You should now be able to access Fabric. If you navigate to **Workspaces**, you'll see 3 x pre-provisioned workspaces with prefix **ws_** and **_suffixes** (*_public*, *_oap*, *_wspl*).
- ws_<username>_oap
 - ws_<username>_public
 - ws_<username>_wspl

All workspaces include your username as part of workspace name.

Let's keep your account secure

We'll help you set up another way to verify it's you.

[Use a different account](#)

[Learn more about verifying your identity](#)

[Next](#)

9. You will be prompted to install Microsoft Authenticator or you can use a different authentication app.

Install Microsoft Authenticator

Install the app on your mobile device, then come back here to continue.

[Set up a different authentication app](#)

Next

10. If you opt-in for Microsoft Authenticator, you will be shown the following prompt guiding you through setup instructions.

← secr-user-150@fabconatl26.onmicrosoft.com

Set up your account in app

If prompted, allow notifications. Then add an account, and select **Work or school**.

Next

11. Follow the on-screen instructions and scan the QR code to complete the setup. After you have scanned the QR code and configured **Authenticator app**, select **Next**.

← secr-user-150@fabconatl26.onmicrosoft.com

Scan the QR code

Use the Microsoft Authenticator app to scan the QR code. This connects the app to your account.

Then come back and select **Next**.

[Can't scan the QR code?](#)

Next

Click Next after you have scanned the QR Code in your App.
It will prompt a number on your screen which you may have to enter in your app to verify

← secr-user-150@fabconatl26.onmicrosoft.com

Let's try it out

67

Enter the number shown in the app to approve the sign-in request.

After successful verification, you will see the success screen:

secr-user-150@fabconatl26.onmicrosoft.com

✓ **Authenticator Added**

You can now use Microsoft Authenticator to approve sign-ins, get one-time codes, and more.

This is now your default sign-in method.

Done

Click Done.

Once you have configured **Authenticator app**, you'll be able to access Azure portal. Everytime you login to Azure portal, you will be prompted to perform multi-factor authentication (MFA).
